## SUMMARY

A Software Developer specializing in user interface design, application development, data security and continuous improvement. Adept at identifying opportunities to enhance the user experience and develop new features to improve app functionality.

## PROJECTS

### School Website

#### Responsive Website

- A responsive school website dynamically adapts to different devices, ensuring usability on desktops, tablets, and smartphones. Key features include a flexible layout, easy navigation, and quick access to important sections like Academics, Admissions, and Contact.

### Dairy Farm

#### Backend

- Website that provides online Dairy Product User can buy the products and add to cart like Milk, Panner, ice cream, lassi etc .
- Created signup login and logout page and also created Rest API from Django REST framework by using Postman Agent. I have showed image in website through "static files" and Django provides `django.contrib.staticfiles` to manage these static files. Technology: Python, Django, HTML, Bootstrap, MySQL.
